As-Is Architectural Diagnostic and Technical Topography

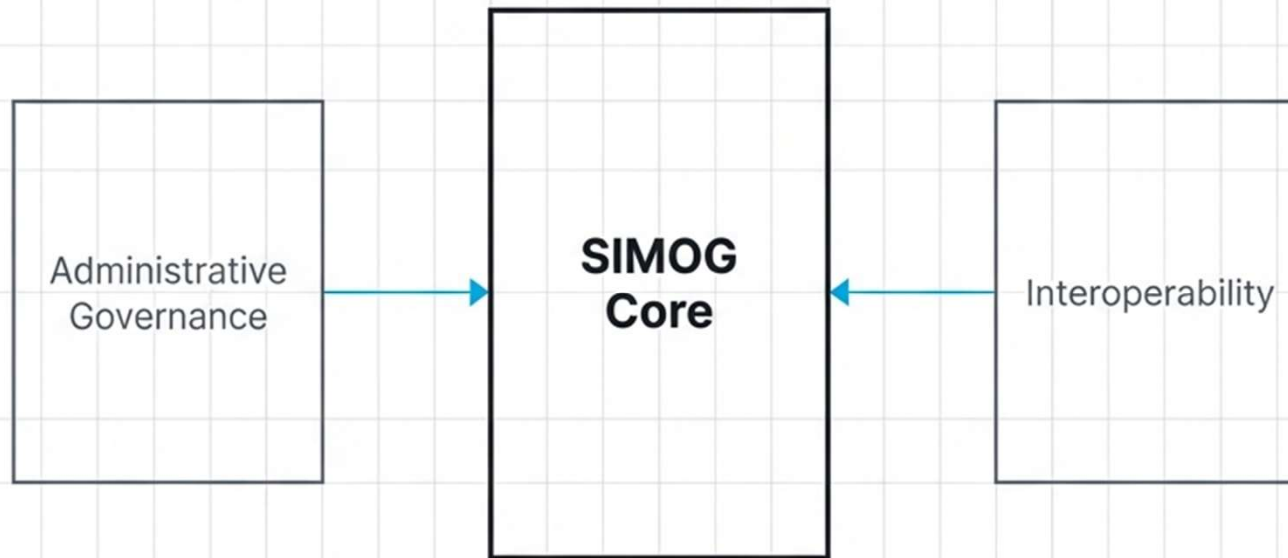

Internal Technical Briefing | Enterprise Architecture Review

ANAC AUTORITÀ
NAZIONALE
ANTICORRUZIONE

The Central Nervous System for Public Sector Procurement

Primary Mandate

A comprehensive platform for public procurement lifecycle management and monitoring.

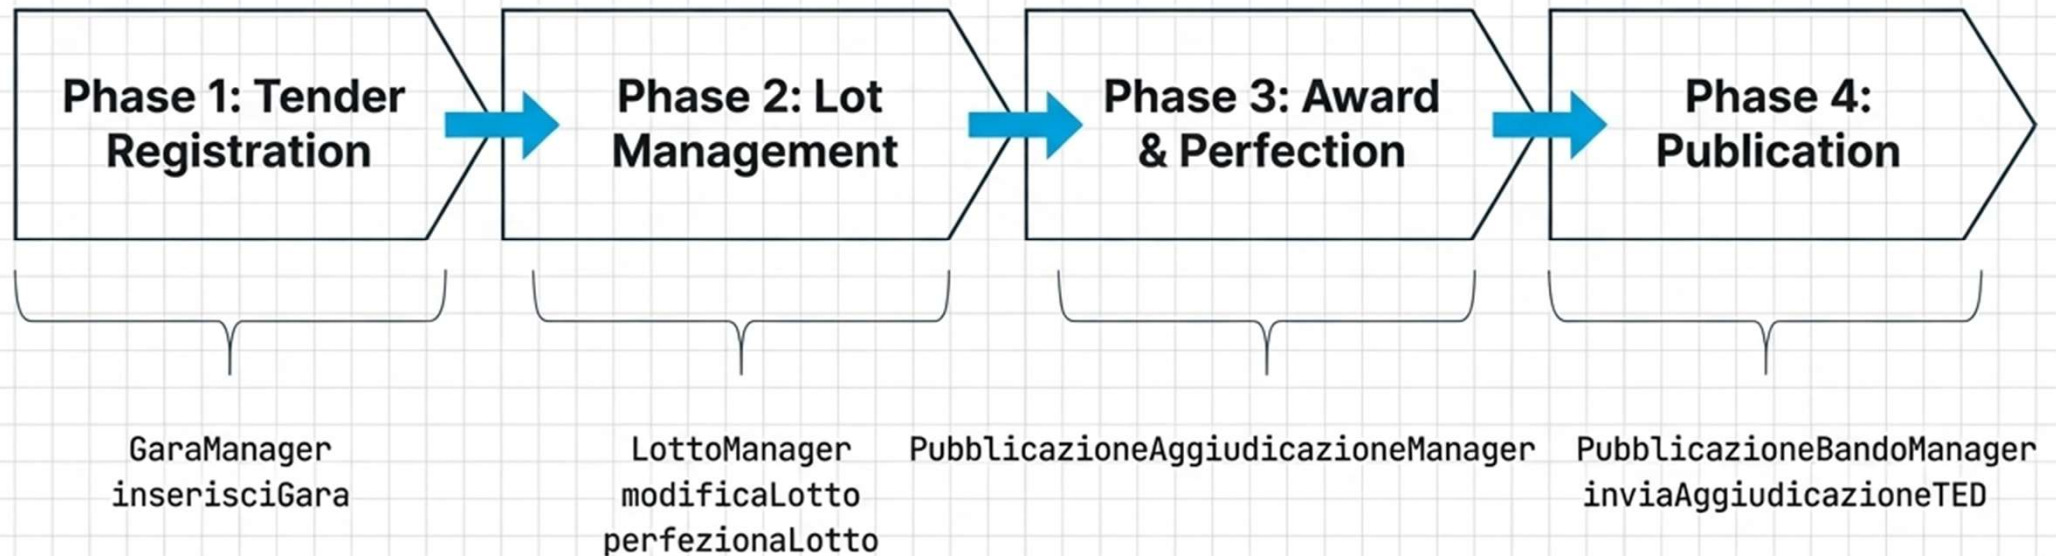

Core Capabilities

Tender registration, lot management, award perfection flows, and contract updates.

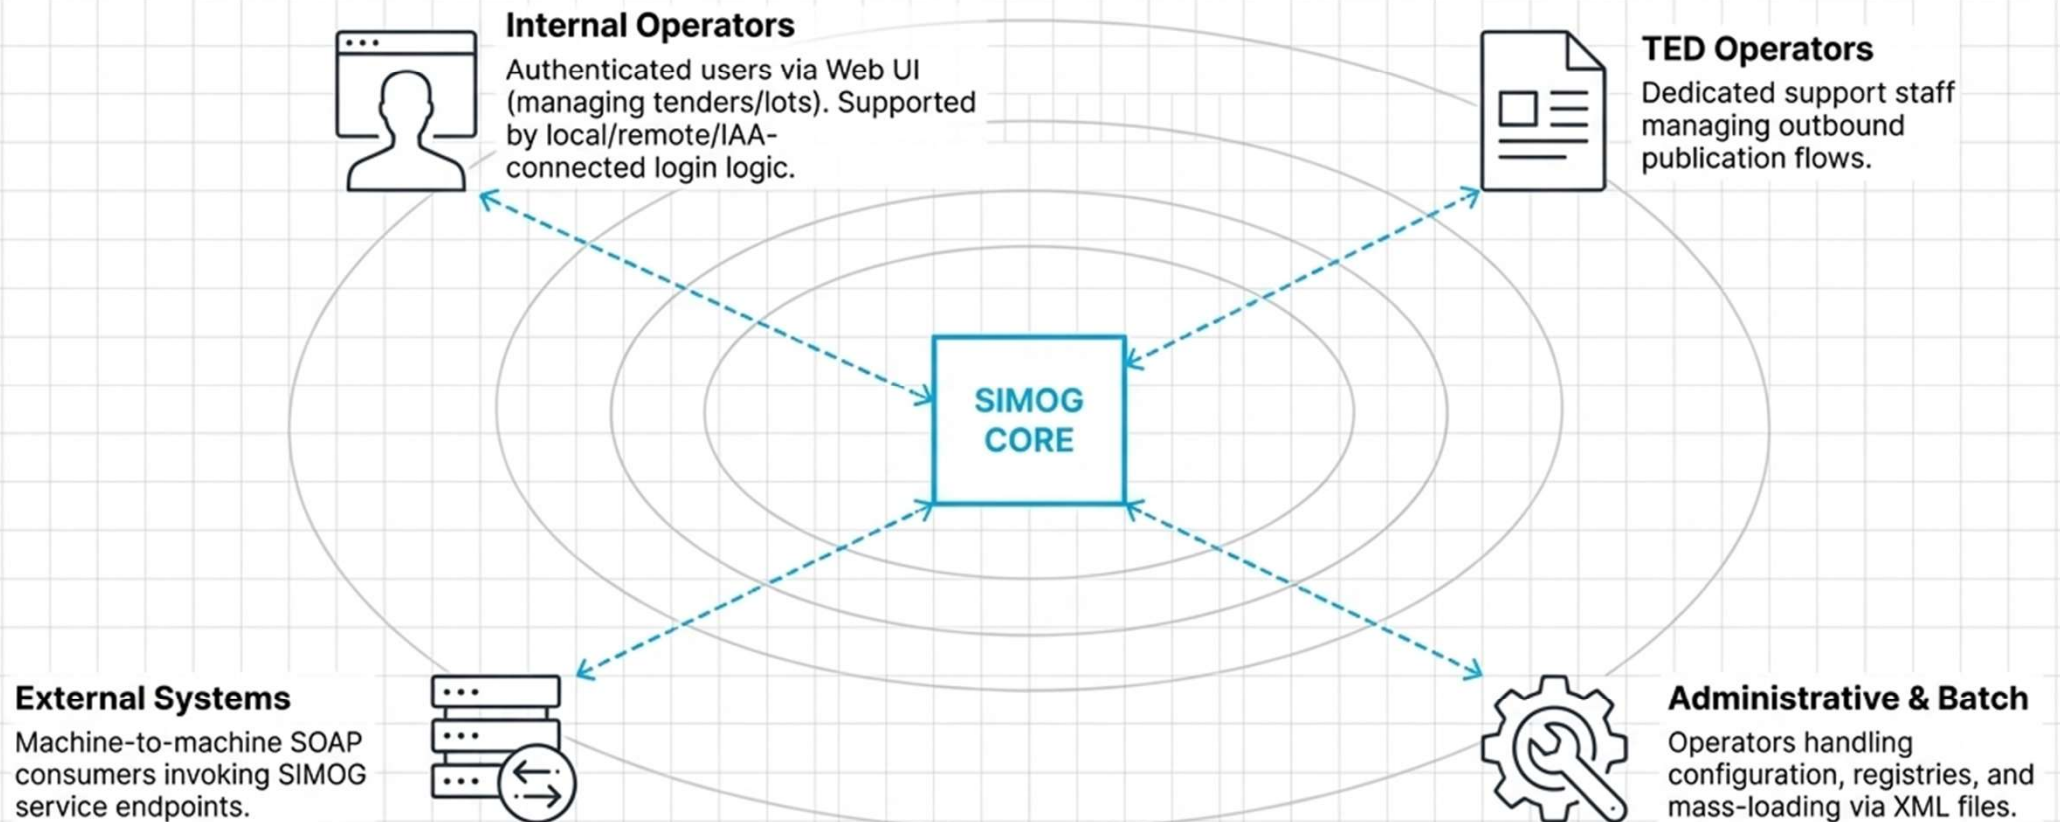

Operational Posture

A functionally rich, highly integrated hub enforcing procedural phases and workflow validation.

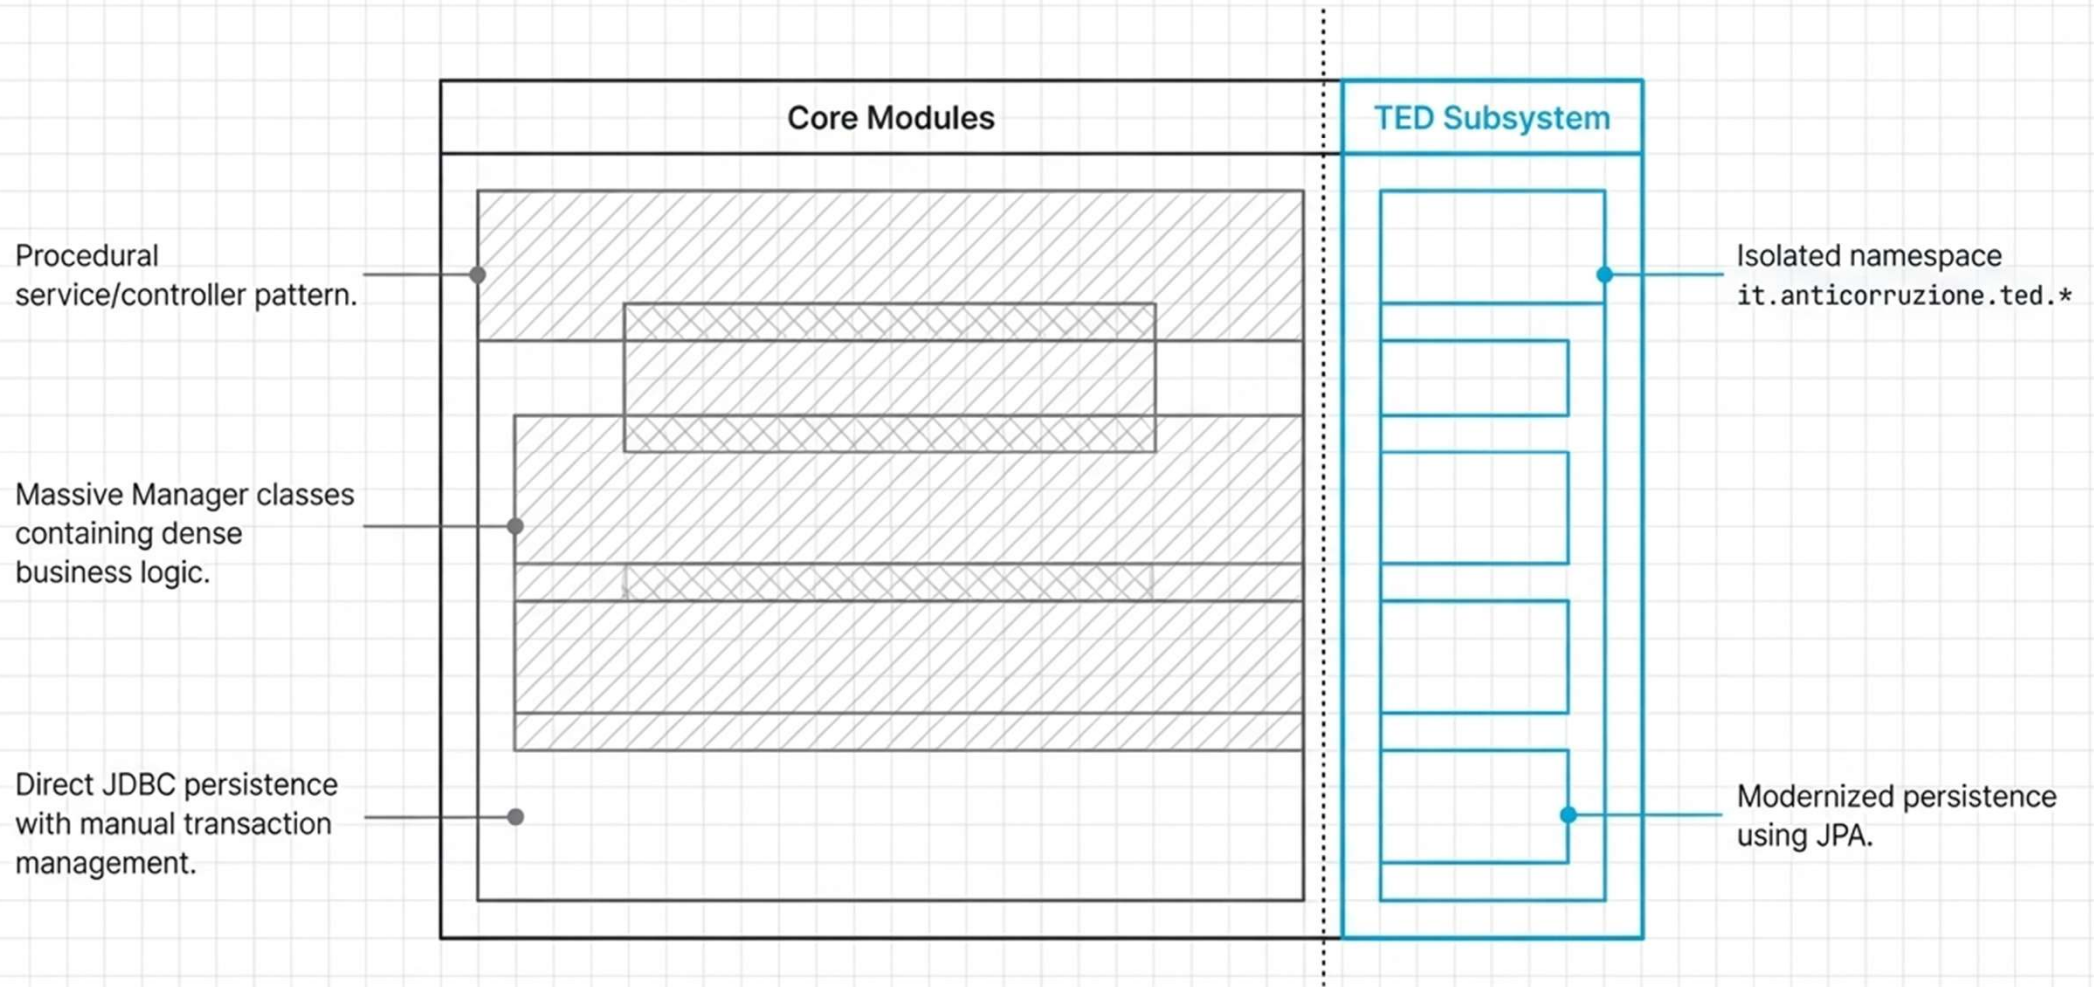

The Procurement Lifecycle Pipeline

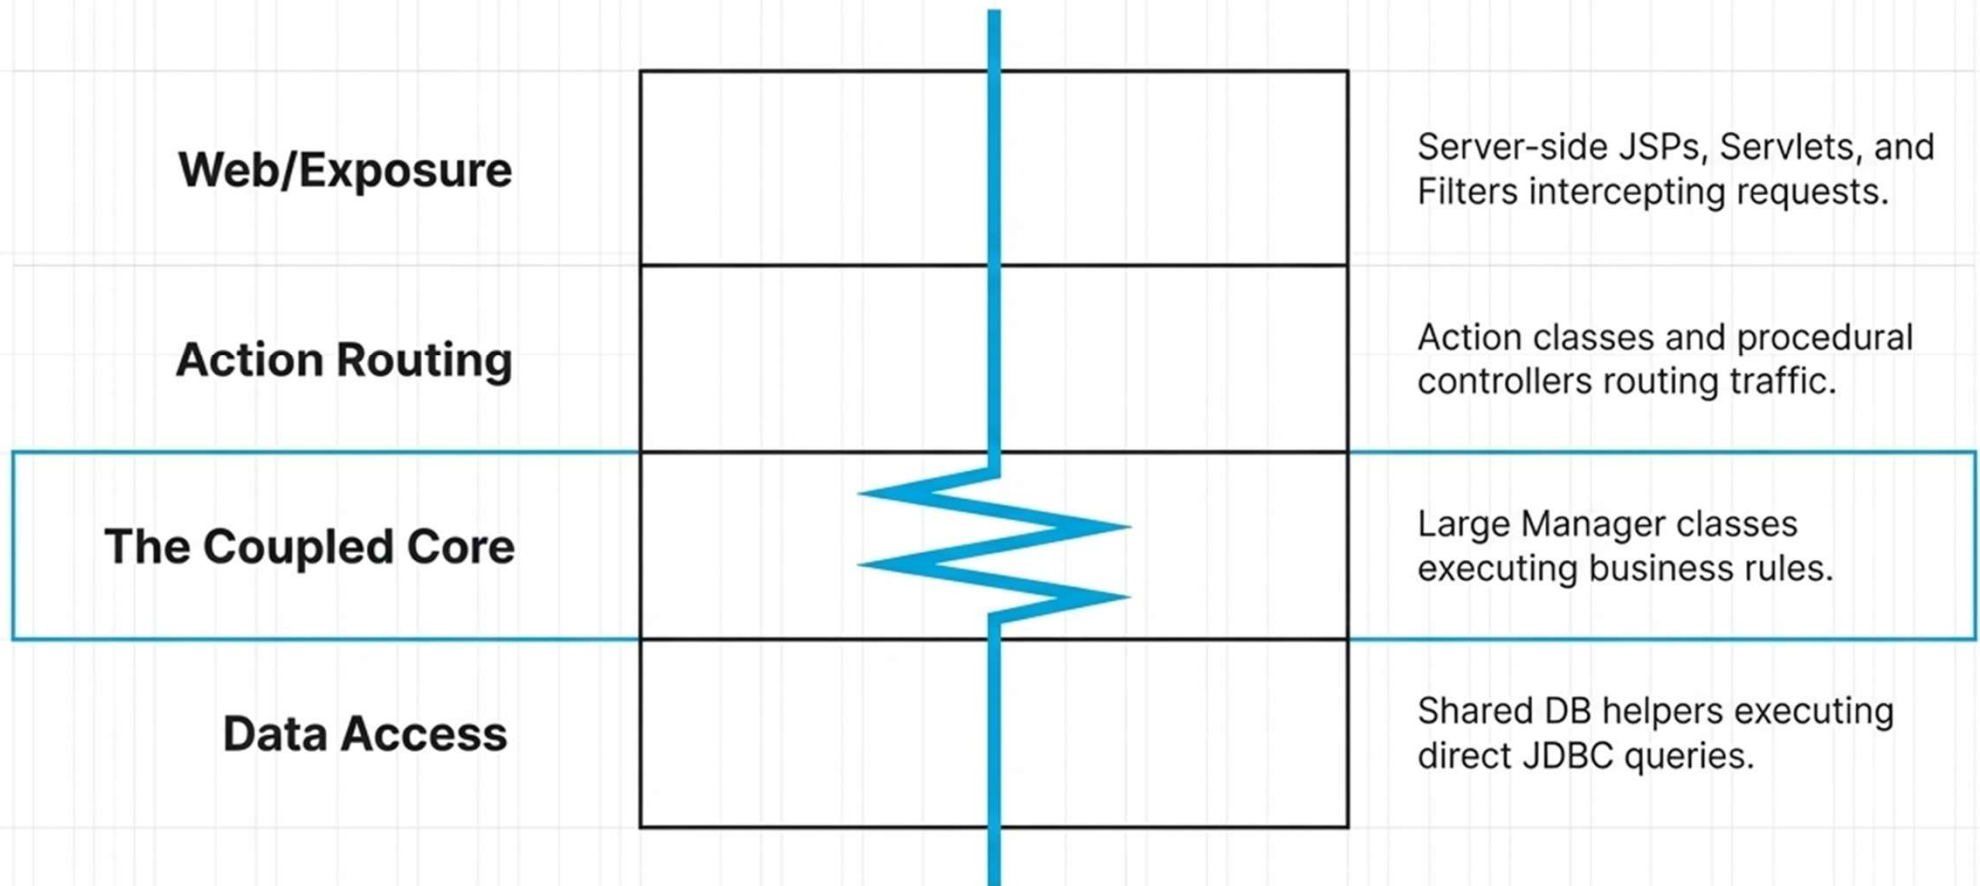

Platform Ecosystem Actors

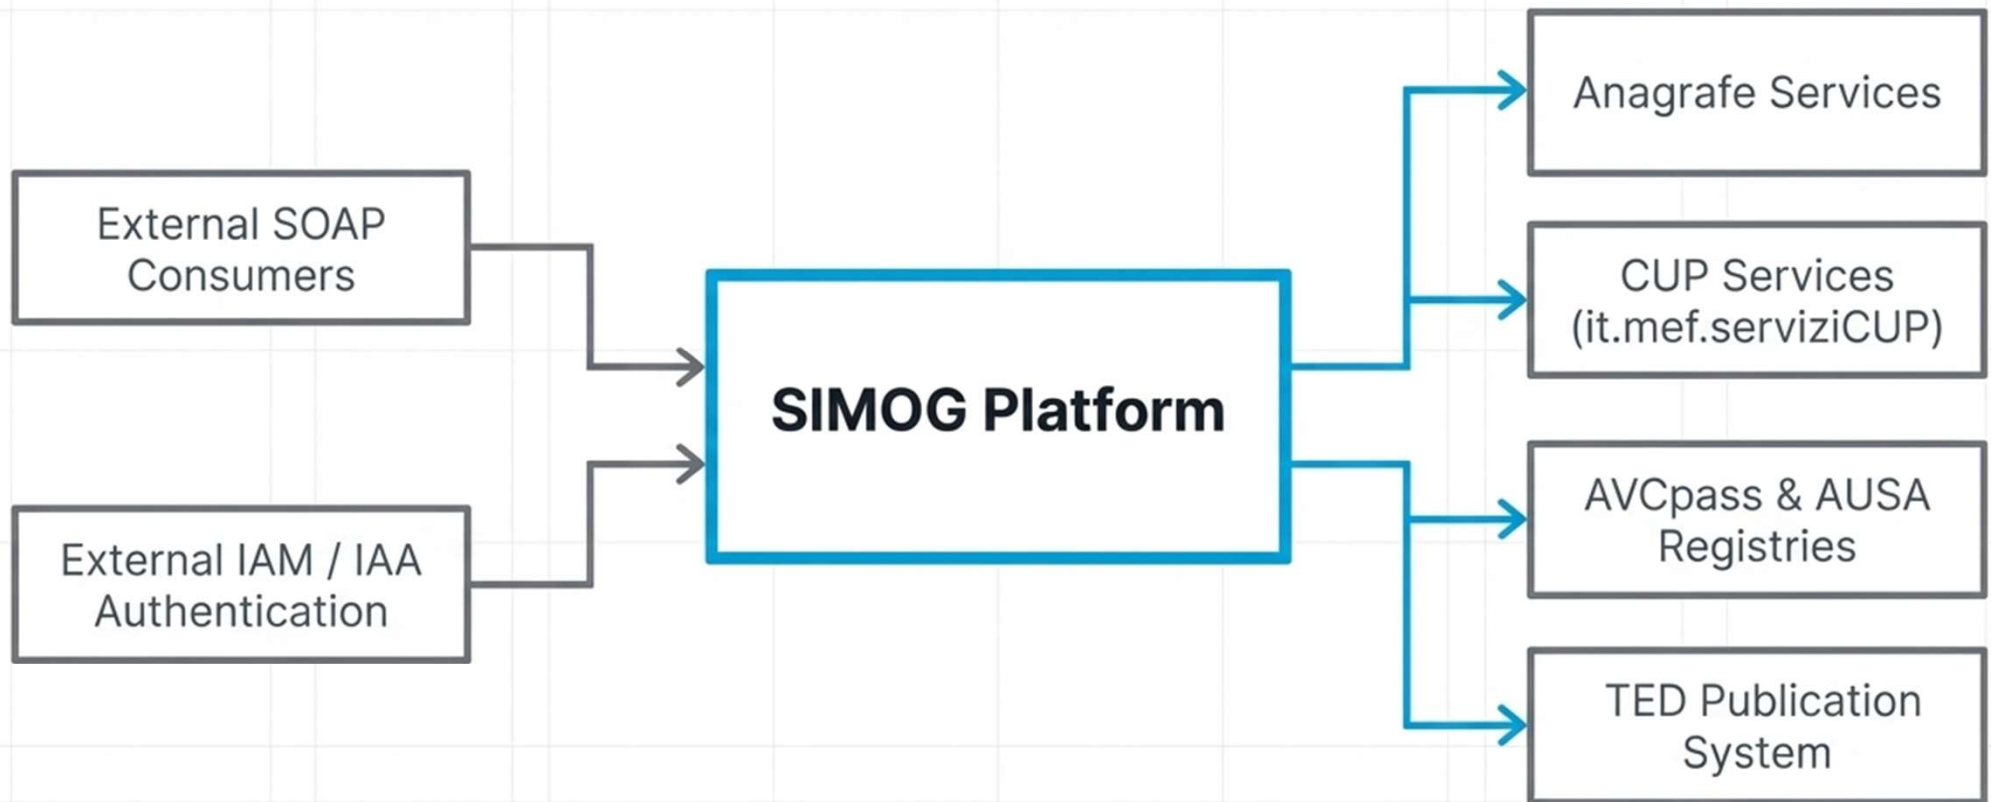

Architectural Posture: The Legacy Monolith

Internal Logic and Persistence Topography

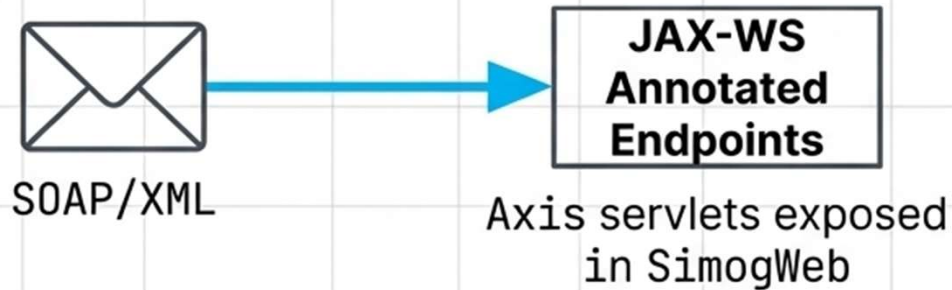

External Interoperability Context

Contract-Driven Communication Mechanics

Inbound Exposure

Outbound Consumption

Payloads: Strict XML contracts and schemas.
Batch mass-loading powered entirely by XML file parsing.
